# VII YOUNG RESEARCHERS MEETING

19-20th November 2025

---

Welcome to the **VII Young Researchers Meeting**, taking place on November **19th–20th, 2025, in Madrid**.

This meeting aims to provide a dynamic and collaborative platform for young and senior scientists to present and discuss their latest research and advancements in the field of cancer. Over the course of the two-day event, we will showcase a diverse program of oral and poster presentations, highlighting the work of emerging researchers across multiple disciplines within cancer research.

In addition to the contributions from young researchers, the event will feature keynote lectures and round table discussions with leading experts, who will offer insights and guidance to inspire the next generation of scientists.

To recognize excellence in scientific communication, awards will be given for the best oral presentations by pre-doctoral and post-doctoral researchers, as well as the best poster presentation. We look forward to welcoming you in Madrid for an exciting and enriching scientific experience. Thank you, and see you at the **VII Young Researchers Meeting!**
